

***Technology Review's* Emerging Technologies Conference to Showcase Game-Changing Technologies, Innovators and Emerging Industries**

CAMBRIDGE, Mass. — August 7, 2007— From alternative energy to metagenomics, nanoelectronics and more, [Technology Review's Emerging Technologies Conference](#) will explore “game-changing” innovations and their potential to influence everyday life. Held September 25-27 at [MIT](#), the conference gathers leaders from a broad spectrum of fields to discuss the latest technologies with the power to transform industries and create new markets.

The conference kicks off with a “Game Changers” keynote panel featuring the masterminds behind some of today’s most intriguing and influential Internet technologies:

- [Suranga Chandratillake](#), Cofounder and CTO, Blinkx;
- [Tariq Krim](#), Founder, Netvibes; and
- [Kevin Rose](#), Founder and Chief Architect, Digg.

Panel moderator Jason Pontin, editor in chief and publisher of [Technology Review](#), noted, “Each of these founders has delivered innovative Internet services that enable people to engage with new media in highly personalized, even groundbreaking ways.”

The [2007 Emerging Technologies Conference](#) also features keynotes from well-known game changers such as [Charles Simonyi](#), space tourist and co-founder of Intentional Software, and Gilberto Gil, Brazil’s Minister of Culture, Grammy award-winning musician and leading voice on digital rights issues.

The [2007 Emerging Technologies Conference](#) will also explore game-changing innovations in other areas including peer-to-peer networking, metagenomics and virtual worlds, as well as the [impact of women working in technological fields](#). In addition, the conference showcases the annual [TR35](#), a unique group of men and women under the age of 35 who have developed technologies that will have a profound effect on the world.
